MASTERS OF STONE

Terrace and Pool

GDM.MOSAICO tile oxydo, magma

When we are in the garden we flourish and enjoy time with family and friends. Create your own personal feel-good place. We are happy to support you in doing so.

Silvia Godelmann Director of Marketing and Communication

Immerse yourself

The trend towards owning a pool is unbroken. More and more garden owners are fulfilling the dream of having their own pool in their gardens. We can offer you the right setting for your swimming pool. Whether as a curved design with rounded head side or as a flat design with chamfered edge.

In our factory we can put together customised solutions, in individual colours and sizes, tailored to your project. And because swimming pool enclosures are often wet, surfaces can be shot-peened to improve slip resistance.

GDM.DUNA tile visia, Weiß, 75/50/(2,5 – 3) cm

Outdoor kitchens

An outdoor kitchen signifies new possibilities in your own backyard. Thus, a private garden expands from a living room, a recreation space and a playground into an enjoyable outdoor kitchen. Move convivial cooking parties out of your own four walls into the garden. Spend time with friends and family in the fresh air and put meat and vegetables on the grill together, or use the hot plate. In our factory, outdoor kitchens are created to fit your needs and requirements. Contact us!

GDM.APPARENTE TILE visia, dark grey

GDM.MASSIMO tile visia, light grey, 120/60 and pool enclosure consisting of GDM.MASSIMO step visia, light grey

The visible edge panels have been slightly rounded and are blasted with a fine-grain finish.

Privacy screen

The terrace is an additional outdoor room in the summer. Cosiness and privacy are part of it. A privacy screen is the ideal solution so that you can do whatever you want there without prying eyes. Walls made of stone or an attractive wall covering with our design tiles provide more privacy in the garden, and at the same time also offer wind protection for a cozy seating area. A privacy screen, of course, not only separates your property from neighbors; it is also a design element that attracts attention.

GDM.MOSAICO tile etrusco, grey

GDM.MOSAICO tile oxydo, magma

Our pool borders are both sure-footed and can be walked on barefoot, plus they have multiple view sides and can accommodate the shape of the pool with custom dimensions.
